THIS PUBLICATION IS THE PRODUCT OF A MEMBER *of*

THUS ASSURING you the ultimate service that skill and care can produce in the way of City Directories or other reference media.

The following "Standards of Practice," adopted at the inception of the Association of North American Directory Publishers in 1898, and strictly adhered to over the years, is your guarantee of satisfactory Directory Service.

The publisher of a Directory should dedicate his best efforts to the cause of business uplift and social service, and to this end pledges himself:

1. To consider, first, the interest of the user of the book.
2. To subscribe to and work for truth, honesty and accuracy in all departments.
3. To avoid confusing duplication of listings, endeavoring to classify every concern under the one heading that best describes it, and to treat additional listings as advertising, to be charged for at regular rates.
4. To increase public knowledge of what Directories contain; to study public needs and make Directories to supply them; to revise and standardize methods and classifications, so that what is wanted may be most easily found, and the Directory be made to serve its fullest use as a business and social reference book and director of buyer and seller.
5. To decline any advertisement which has a tendency to mislead or which does not conform to business integrity.
6. To solicit subscriptions and advertising solely upon the merits of the publications.
7. To avoid misrepresentation by statement or inference regarding circulation, placing the test of reference publicity upon its accessibility to seekers, rather than on the number of copies sold.
8. To co-operate with approved organizations and individuals engaged in creative advertising work.
9. To avoid unfair competition.
10. To determine what is the highest and largest function of Directories in public service, and then to strive in every legitimate way to promote that function.

I—*nviting prospects for investment in homes, industries or land.*
A—*nalysis will show MONROVIA second to none in homes, schools, church and social life, and a progressive business spirit.*

Monrovia is located 18 miles northeast of Los Angeles on the Foothill Boulevard, a part of the National Old Trail, at the base of the Sierra Madre Mountains overlooking the San Gabriel Valley. The elevation is from 560 to 1400 feet, with an estimated population, as of January 1, 1928, of 13,500 people.

Monrovia is on the main line of the Santa Fe, a branch line of the Southern Pacific and the Pacific Electric railways, with bus service to all points. Location, transportation, reasonable real estate values, ideal living conditions, excellent educational facilities and an adequate supply of labor make Monrovia exceptionally well adapted for homes or industries.

Monrovia is internationally known as a health resort, and is the home of the Pottenger Sanatorium, famous for its successful treatment of tuberculosis.

A Chamber of Commerce that is well equipped and glad to be of service to visitors, and to its community, will furnish specific information upon request.

THIS PUBLICATION IS THE PRODUCT OF A MEMBER *of*

THUS ASSURING you the ultimate service that skill and care can produce in the way of City Directories or other reference media.

The following "Standards of Practice," adopted at the inception of the Association of North American Directory Publishers in 1898, and strictly adhered to over the years, is your guarantee of satisfactory Directory Service.

The publisher of a Directory should dedicate his best efforts to the cause of business uplift and social service, and to this end pledges himself:

1. To consider, first, the interest of the user of the book.
2. To subscribe to and work for truth, honesty and accuracy in all departments.
3. To avoid confusing duplication of listings, endeavoring to classify every concern under the one heading that best describes it, and to treat additional listings as advertising, to be charged for at regular rates.
4. To increase public knowledge of what Directories contain; to study public needs and make Directories to supply them; to revise and standardize methods and classifications, so that what is wanted may be most easily found, and the Directory be made to serve its fullest use as a business and social reference book and director of buyer and seller.
5. To decline any advertisement which has a tendency to mislead or which does not conform to business integrity.
6. To solicit subscriptions and advertising solely upon the merits of the publications.
7. To avoid misrepresentation by statement or inference regarding circulation, placing the test of reference publicity upon its accessibility to seekers, rather than on the number of copies sold.
8. To co-operate with approved organizations and individuals engaged in creative advertising work.
9. To avoid unfair competition.
10. To determine what is the highest and largest function of Directories in public service, and then to strive in every legitimate way to promote that function.
